"We build your visual world"

Vision

Customer is most important part of our deepminds family
To be the most Admired and Successful IT Company in India by meeting and exceeding our Customer's expectation of service.

Mission

To Focus on Customer loyalty & make it the goal of our Organization.
To encourage our people for adoption of new technologies, processes and systems for improved, reliable and speedy service.

Values

"A customer is the most important visitor on our premises.
He is not dependent on us. We are dependent on him.
He is not an interruption of our work.
He is the purpose of it. He is not an outsider of our business.
He is part of it. We are not doing him a favour by serving him.
He is doing us a favour by giving us the opportunity to do so."

Services

Software Development

We are offshore application Development Company in India.
Our team of expert technicians understand your requirements thoroughly, prepare architecture, develop, test and finally implement it.
We follow best practices for the software development process and rigorously test to guarantee a bug free code
Application Development allows you to better streamline operations, automate important tasks, improve employee efficiency, increase data accuracy, and empower key decision makers to help drive the bottom line.
Finding the correct mix of business process, creative thinking, and hi-tech innovation is a delicate balance.
At Deepminds, we have combined the Designer and Programmer roles to produce software that fits your business like a glove.

Website Development

Are you looking for the outsourcing partner who will take all the responsibility of your projects, form development to delivery of the project on time? We always have been the preferable choice of our clients to outsource their work.
We have build up the trust amongst our business partners and clients by providing them operational efficiencies and excellence with maximizing their investments and reducing their IT management costs.
Offshore Development center is a growing business model for the medium and large size companies today.
DMITPL helps to serve your market better in the competition.
We offer DMITPL facility for you to help in your business.

Mobile App Development

With the rise in trend of the mobile technology, many companies are looking to outsource mobile app development in India.
We have expertise in developing Mobile Applications across a variety of platforms and devices.
Our experience includes Android, Blackberry Windows Mobile, iPhone , Symbian Mobile Application Development.
Outsourcing of custom mobile software development can provide users with access to real-time information anytime, anywhere on any device.
Whether your site requires an occasional update or ongoing.
This technology is growing rapidly and people are enjoying using it.
It is being used for entertainment, gaming and also to generate revenue by delivering premium and paid content.
Now its use is not limited to text messages, and networking but also for chatting, online polls, registrations reviews / ratings and other statistics purposes.

E-Commerce Application

Having an Ecommerce site for your business can be a great competitive advantage.

You save cost by selling the goods or services online and pass on the benefit to your customers.

We being an Ecommerce website development company - India, help you open your online store and expand your reach and business.

We are an offshore digital marketing company. We know how important SEO is so we have developed few techniques which will surely improve the rank of your website in search engine result pages which will ultimately be responsible for the growth in business.

Digital Marketing

Increase your search engine result page (SERP) rankings with our experience and expertise. We are India's top SEO Service Provider In Pune.

We are a principled realistic thinking team which does not guarantee the magical top positions overnight.

Instead, we recommend organic seo to get traffic to your website.

That includes building a sustainable development program for long term marketing.

We work well under your budget with appropriate marketing strategies and planning. Link building, link removal, reciprocal linking, PPC management, SEO audit, reputation management etc. are the essentials and basic minimum for SEO.
